

# Maharashtra and Karnataka Floods - 2019

Pre-Flood

Resourcesat-2 AWiFS 03-April-2018

Post-Flood

Radarsat-2 SAR 09-August-2019

## Legend

● Settlements

Floods were reported in Karnataka and Maharashtra due to heavy rains and release of water in Krishna River Catchment areas inundating vast tracts of land. NRSC/ISRO has analysed microwave datasets of Radarsat and Sentinel SAR during 6th, 9th, and 12th August 2019.

The adjacent images show the Pre and Post Flood Situation as on August 09, 2019.
